

Guest Internet in a Community Solution

What is an Allegro Smart Resort?

Guest internet is growing rapidly. Guests are packing their laptop before their towel and sunscreen. If you are looking for a total solution for guest internet and so much more, that's Allegro's Smart Resort.

Allegro's Smart Resort caters to the diverse needs of a resort community. Building managers can offer a great internet experience to their guests, and enjoy a new revenue stream, effortlessly. Guests are online immediately, enjoying super fast internet with roaming to hot spots. Permanent residents enjoy high speed next generation services, at great rates, with the convenience of their own monthly bill. Businesses within the resort enjoy industry leading speeds, service and support on our business grade services. Allegro looks after everything, from activating to billing to service and support.

Who is using Allegro's Smart Resort?

If you are building manager looking to give your guests the best internet experience, our Smart Resort is the easy solution. If you are a body corporate looking to enhance the services in your community, our Smart Resort offers the highest speeds and service levels around.

What do I earn? What does it cost?

Most building managers prefer Allegro to provide the end to end solution for guests. For a fully managed solution:

What you earn	50% of Guest Internet Revenue			
	Set up	Ongoing	Hotspots	PMS Billing
What you pay	\$2000 /resort	\$15/room /mth	\$880 /hotspot	POA

If the revenue share is 50%, what do we charge the guests?

Guest Plan	1 Day	3 Day	7 Day	30 Day
Guest Charge	\$27.50	\$3850	\$77.00	\$198.00

If a Building Manager wishes to manage the solution, Allegro can provide component parts of its solution, on different terms.

If you cannot get broadband in your building today, government subsidies may apply, to reduce the costs of the solution – enquire now!
